Should all these enter into the matrimonial problem.

In a letter addressed to the editor of the Cincinnati Price Current, Prof Wilof the weather bu

reputable scientist will to-day essay to make long-range predictions. With ical science such forecasts cannot be made with any marked degree of acproper consideration of the weather make long-range predictions and have worse than useless; if it were possible to make reliable long-range forecasts the weather bureau, with its corps of trained scientists, would surely do such work for the people, as no one can overestimate the immense benefit that agricultural and commercial interests would reap from a knowledge of what the weather would be during an advancing crop season."

Railroad managers do not proposto be caught short-handed in their shipping facilities next year. All the eading trunk lines were short of ears this past season, especially box cars. On this account cattle cars were appropriated to carry miscellaneous freight, and they were not available sometimes when needed to Our Mr. Fleming, of Fleming & haul live stock. The business of the country seems to have outgrown the carrying capacity of the roads, but from indications it looks as if the from indications it looks as if the railroad companies would try to turn out the cars fast enough. An other thing needed by some of the roads is more trackage.

Dr. C. H. McCarthy, author of "Lincoln's Plan of Reconstruction. is somewhat of a wit, and in his history classes in Philadelphia the pupils endeavor to emulate him.
